We have the pleasure in the following two pages to present cuts of the interior and exterior of our

NEW "ORCHESTRAL GRAND" PIANO,

of novel shape and elegant construction, and far superior in power to any Grand Piano yet produced, having, in the short period in which it has been before the public, received the unqualified indorsement of the highest professional authorities for its marvellous power and extraordinary richness of tone.

"THE ORCHESTRAL GRAND" is the matured result of many years of study and practical experience in piano manufacture, and is now offered to the musical public with great satisfaction and confidence as an instrument having no superior in the Old or the New World.

Attention is called to the following entirely unsolicited indorsement of its merits :—
